PREMIUM FIELD INSTALLATION BRUSHCUTTER KITS

- BOLT ON DESIGN
- POWDER COATED

- STEEL CLAMPS
- SINGLE O-RING CONNECTION

- HEAVY WALL TUBING
- LOCKING BALL VALVES

- STEEL WIRE HOSE PROTECTION
- WELDED TUBE ENDS

DESIGNED FOR LONG REACH APPLICATIONS

- DUAL PRIORITY VALVES
- BOLT ON STEEL MOUNTS

- FOOTSWITCH FOR ACTUATION
- SAFETY CUT OFF FUNCTION

- EASY-TO-FOLLOW INSTRUCTIONS
- FAST INSTALLATION

- SINGLE CRATE SHIPMENT
- QUICK RELIABLE SHIPMENTS

BEST IN CLASS CUSTOMER SUPPORT!

TOP REASONS WHY HCT HYDRAULIC KITS ARE THE MOST DURABLE AND RELIABLE KITS ON THE MARKET!

	HCT	Competition
FULL LENGTH TUBES ON BOOM <i>Competition uses multi tube design and shorter tube lengths.</i>	✓	✗
BOLT ON DESIGN/POWDER COATED Kits are bolt on and designed to fit existing OEM brackets. Powder coated finish gives longer life.	✓	✓
STEEL CLAMPS HCT steel clamps are custom designed for a tight fit. <i>Competition uses aluminum clamps that are not as reliable.</i>	✓	✗
SINGLE O-RING CONNECTION HCT tubes and hoses require single O-Ring per (ORFS) connection. <i>Competition uses a male union which requires twice the O-Rings per (ORFS) connection.</i>	✓	✗
HEAVY WALL TUBING HCT has thickest wall hydraulic tubing in the industry. <i>Competitors' kits are noticeably lighter in weight.</i>	✓	✗
WELDED TUBE ENDS HCT welds tube ends providing durability and reliability. <i>Competition provides flared compression fittings (not welded).</i>	✓	✗
STEEL WIRE OR PLASTIC HOSE PROTECTION HCT provides steel wire guard (stick hoses) and plastic guarding (valve compartment). <i>Competition provides bare hose.</i>	✓	✗
INSTALLATION INSTRUCTIONS HCT provides detailed instructions with photos and CAD drawings <i>Competition provides installation instructions.</i>	✓	✓
SINGLE CRATE SHIPMENT HCT provides one single crate per standard kit shipment. <i>Competition uses 5 - 8 different packages to ship one standard kit.</i>	✓	✗

888 603 0080

HEAVY DUTY EXCAVATOR FRONT WINDOW GUARDS

FEATURES:

TUBULAR FRAME

- Provides strength and durability
- Powder coated for longevity

BOLT ON DESIGN

- Allows for a quick and easy installation

HEAVY DUTY MOUNTING

- Ensures greater stability

EASY WINDSHIELD ACCESS

- 6" spacers

CRIMPED WOVEN MESH

- 1/4" wire, 2" x 2" spacing

FULL LENGTH LEXAN

- 1/2" thick

VERSATILE APPLICATIONS

- Two part numbers typically cover 7 to 60 metric ton for excavators
- Standard and Reduced Radius

GUARD CHOICES FOR BRUSHCUTTERS:

- Lexan Only
- Mesh + Lexan Combo

MOUNTING OPTIONS:

- Fixed
- Hinged
