

HYDRAULIC CIRCUIT TECHNOLOGY

EXCAVATOR HYDRAULIC KITS & FRONT WINDOW GUARDS

ELECTRONIC COUPLER CONTROL BOX

FEATURES:

- Works with both 12V and 24V systems to operate a solenoid coil
- Two step safety system to disengage and 5 second time out
- Weatherproof design works on open and closed excavator cabs
- Durable and lightweight ABS plastic enclosure

FUNCTIONS:

- Actuates the quick coupler valve for unlocking or locking the coupler cylinder
- Visual and Audible (80dB min) signals indicate operational status
- The Yellow Power Status LED indicates if power is available to the box
- The Red Disengaging Mode LED indicates when an output is available and DISENGAGE mode is active
